

MOUNT HOOD FROM LOOKOUT MOUNTAIN

— Photo by A. Sherwood

*From heights I looked into a valley filled with pale gray mist;
It lay impen'trable and cold as marble brow by mourners kissed.
But high above in clearest air — Oh, wondrous sight,
A snow clad peak arose, tinged coral in the morning light.
At once the baffling mist became a fitting base — a God wrought scheme —
To rest a statue that surpassed the greatest sculptor's loftiest dream.*

— DAWN ON MOUNT HOOD BY JANETTE MARTIN.

MAILING ADDRESS — CORBETT, OREGON — PHONE FRONTIER 5-2796
NURSERY — GRESHAM, OREGON

Fall 1957

Spring 1958

It is with real happiness that we announce our new address. For many years we have been much crowded with our propagating plant. Now, with an abundance of water, acres and acres of good earth and the finest of growing conditions the propagating nursery is being combined with our growing grounds six miles east of Gresham. This combination in mountain atmosphere where evergreens naturally grow at their best will give us an unsurpassed economy.

DWARFS?

Are you interested in dwarf and low growing evergreens? Can you find enough good material for planter boxes and one-story homes? Are you able to keep up with the demand for dwarf evergreens? Perhaps this list will be helpful to you:

	Page
Abelia grandiflora sherwoodi (Sherwood Dwarf Abelia)	
A choice little plant, especially where space is a factor, supplying a long felt need	5
Aucuba japonica nana (Dwarf Aucuba) (Female)	
Lustrous green leaves and a profusion of bright scarlet berries.....	6
Azalea amoena coccinea	
Foliage dark, glossy, compact. Flowers bright red.....	6
Azalea hinodegiri (Crimson Azalea)	
When in bloom the plant is completely covered with bright red flowers.....	7
Azalea macrantha	
Late season blooming. Flowers red salmon.....	7
Azalea maxwelli (Maxwell Azalea)	
Foliage heavy and luxuriant. Flowers extremely large, carmine red.....	7
Sherwood Cerise Azalea	
Flowers bright clear cerise, very lovely.....	7
Sherwood Orchid Azalea	
Flowers are a clear lavender with speckled throat.....	8
Sherwood Red Azalea	
Flowers of the most brilliant blood red imaginable.....	8
Berberis stenophylla erwini (gracilis)	
Gracefully spreading evergreen shrub. Yellow flowers.....	9
Buxus sempervirens suffruticosa (Truedwarf Box)	
The well known evergreen edging plant.....	9
Buxus sempervirens suf. albo-marginata (Silveredge Dwarf Box)	
Presents a pleasing silvery appearance.....	9
Chamaecyparis lawsoniana minima glauca (Little Blue Cypress)	
A beautiful true dwarf conifer, dark and dense, bluish green foliage.....	11
Chamaecyparis lawsoniana nestoides (Bird's Nest Cypress)	
Low growing spreading habit of growth.....	11
Chamaecyparis pisifera filifera nana aurea (Dwarf Golden Thread Cypress)	
A compact mass of velvety, dark golden pendulous filaments.....	12
Cryptomeria japonica lobbi nana (Dwarf Lobb Cryptomeria)	
Dwarf, very compact, rounded, conifer.....	12
Daboecia polifolia alba (White Irish Bell Heather)	
Nodding flowers of purest white, resembling Lily of the Valley.....	13
Daboecia polifolia rosea (Pink Irish Bell Heather)	
Starts blooming in spring and continues in bloom until cold weather.....	13
Erica carnea sherwoodi (Sherwood Creeping Heath)	
An extraordinarily beautiful gem.....	14
Euonymus radicans argenteo marginatus (Silveredge Wintercreeper)	
A variegated, low, procumbent shrub.....	14
Hedera helix arborescens (Bush English Ivy)	
Twisted and contorted in an interesting manner.....	15
Kalmia latifolia (Mountain Laurel)	
Effective singly or in mass plantings.....	17
Ledum columbianum (Labrador Tea)	
This splendid plant undoubtedly has a great future.....	17

DWARFS?—(continued)

	Page
Leucothoe catesbaei (Drooping Leucothoe)	
A good under-cover plant or facer for taller shrubs.....	18
Picea excelsa mucronata (Dwarf Norway Spruce)	
Dense, dwarf conifer. One of the best, having a multitude of uses.....	20
Picea excelsa nidiformis (Nest Spruce)	
A dwarf conifer with exceedingly compact dark green foliage.....	20
Picea excelsa pygmaea (Pygmy Spruce)	
Truly a gem. Very hardy. Rare.....	20
Picea excelsa sherwoodi (Sherwood's Multnomah Spruce)	
Admirably fitted for naturalistic and picturesque plantings.....	21
Pinus mughus compacta (Mugho Pine)	
Our trees are the best type and of very uniform quality.....	22
Rhododendron myrtifolium (Myrtle Rhododendron)	
Height about 3 feet. Splendid shrub for low foundations. Rare. Hardy.....	23
Taxus cuspidata (Japanese Yew)	
One of the most satisfactory of all dwarf evergreens.....	25
Thuja occidentalis nana (Little Globe Arborvitae)	
A dwarf of regular form. Foliage upright in thick, heavy layers.....	26
Xerophyllum tenax (Pine Lily)	
A low fountain in grass, about 18 inches high and 2 to 3 feet across.....	29

GROUND COVERS?

Evergreen material for slopes and terraces, for shady areas under trees? The demand just keeps on increasing. We never have enough. The following are a few varieties:

	Page
Ajuga reptans rubra (Purpleleaf Bugle)	
Has a rich green, slightly bronzed foliage, blue flower spikes.....	6
Chamaecyparis lawsoniana nestoides (Bird's Nest Cypress)	
Attaining a spread of 6 feet with a height of 2 feet.....	11
Cytisus purgens (Provence Broom)	
Hardy dwarf. Flowers brilliant yellow.....	13
Erica carnea sherwoodi (Sherwood Creeping Heath)	
Low growing heath. A superb ground cover.....	14
Euonymus radicans coloratus (Purpleleaf Wintercreeper)	
A trailing evergreen form of unsurpassed merit.....	14
Gaultheria procumbens (Wintergreen)	
One without peer in its class, fine foliage, pink flowers, brilliant red berries.....	14
Hedera helix conglomerata (Bunchleaf English Ivy)	
An interesting plant which attracts much attention.....	15
Hypericum calycinum (Aaronsbeard St. Johnswort)	
Blooms from June to August, large golden yellow flowers.....	15
Juniperus horizontalis glauca (Blue Creeping Juniper)	
Steel blue foliage. A very lovely trailing form.....	16
Mahonia nervosa (Longleaf Hollygrape)	
One of the very best of Oregon's native shrubs.....	18
Pachysandra terminalis (Japanese Spurge)	
Especially valuable delightful freshness. Hardy. Thrives best in shade.....	19
Vinca minor (Common Periwinkle)	
Makes a complete and refreshing ground cover. Does well in partial shade.....	29

TERMS AND INFORMATION

THE SHERWOOD NURSERY COMPANY located six miles east of Gresham, Oregon, are leading propagators and growers of conifers and broad leaved evergreens.

SHIPPING SEASON: Plants can be shipped from our nursery from about October 1, throughout the fall, winter and spring to about May 1.

TERMS:

Our terms are **NET CASH**. Note carefully the following conditions:

1. We **PAY SHIPPING COSTS** on lining out stock to all points in the United States, Canada and Alaska. Lining out stock for this purpose is defined as any stock not listed as B&B, specimen, or BR.
2. At least **ONE-FOURTH** of the purchase price must accompany all lining out orders. Balance **C.O.D.** Payment in full prior to shipping required on all B&B, BR and Canadian shipments. No order accepted unless accompanied by at least 25% of the purchase price. You will save unnecessary correspondence and loss of time by observing this regulation. To save cost and inconvenience of C.O.D., payment in full should accompany orders of \$20.00 or less. No Canadian shipment accepted for less than \$40.00.

3. The prices quoted are **NET CASH PRICES. F.O.B. Gresham.**
POSITIVELY NO ORDER for lining out stock will be accepted for less than 25 plants of the same size and variety.

Prices quoted in the 10, 100, or 1000 lots apply to **ONE SIZE** and **ONE VARIETY** only.

We reserve the right to substitute grades when necessary and the difference is not too great.

Five plants of same variety and size at 10 rate; 25 at 100 rate; 250 at 1000 rate.

B&B signifies balled and burlapped; BR, bare roots; S, seedling not transplanted; T for each transplanting.

4. The prices quoted herein will hold only throughout the coming nursery year and supersede all other prices.
5. Orders will be dug and shipped promptly in the order in which they are received and as soon as digging conditions will permit. We aim to take care of all orders without unnecessary delay. No stock can be reserved later than April 1. Orders coming in after April 1 will be shipped as soon as possible.

PACKING:

No packing charge is made on any stock.

We are shipping many small balled grades safely and profitably to the buyer packed **BR** (Bare Roots) thereby cutting down shipping costs. Where this can be done we have so indicated. Our method of packing insures the arrival of plants in perfect condition at any place in the United States, Canada and Alaska.

RESPONSIBILITY:

All the stock offered by this Company is grown out of doors and in their own fields with the greatest care and packed in like manner. **WE MAKE NO GUARANTEE**, either expressed or implied, that the plants will grow or give specific results. **ALL SHIPMENTS ARE MADE AT THE RISK OF THE PURCHASER AFTER BEING DELIVERED TO THE CARRIER IN GOOD CONDITION.** We accept all orders upon condition that they shall be void should frost, storm, crop failure or other cause result in injury or destruction of stock, or in inability to deliver.

Abies nobilis (Noble Fir)

The name noble describes this magnificent tree perfectly. A native of the Coast and Cascade mountains of western Washington and Oregon where its dignified appearance is set out in striking effect. The branches grow in whorls with great regularity along the main stem of the tree and are broadly spreading toward the tips. The foliage is usually a beautiful bluish green in color. It is valuable for landscaping purposes and the best of all for the production of Christmas trees. Very hardy.

Ajuga reptans rubra (Purpleleaf Bugle) (*a-jeu' gah*)

A worthy rock plant and ground cover. Has a rich green, slightly bronzed foliage, which is heavy and cleaves close to the ground. The blue flower spikes are 6 inches tall, are numerous and appear in the spring. There is the impression of pleasing and perfect harmony between blossoms and foliage. Evergreen.

1 year plants.....	9	72
--------------------	-------	-------	---	----

Andromeda—See *Pieris***Arborvitae**—See *Thuja***Aucuba japonica nana** (Dwarf Aucuba) (Female) (*au-keu' bah*)

This is a dwarf form with lustrous green leaves and a profusion of bright scarlet berries borne in clusters making a combination of surpassing beauty. Appeals to everyone. Hardy at Ogden, Utah. Comparatively new and rare, but certain to find a place in many gardens. Like the other Aucubas, it is dioecious and the male plants must be planted with the females to produce fruit. Shade loving evergreen.

1- 3 inches once transplanted.....	13	104
3- 6 " " " ".....	16	128

Aucuba japonica variegata (Golddust Aucuba) (Female)

Leaves large, glossy, dark green splashed with gold. Hardy and resistant to smoke and dust. The variegated foliage gives this plant a bright cheerful aspect and since it thrives best in deep shade it is a most useful evergreen for brightening dark, shady corners difficult to landscape. Grows 5 to 6 feet tall.

1- 3 inches once transplanted.....	13
------------------------------------	-------	-------	----	-------

AZALEAS (*ah-zay' le-ah*)**Azalea amoena coccinea**

A splendid dwarf evergreen azalea. Foliage dark, glossy, compact. Flowers bright red completely covering the plant. A wonderful addition to our broad leaf evergreens. It is similar to the hinodegiri crimson azalea but very much hardier.

1- 3 inches once transplanted.....	14	112
3- 6 " " " ".....	17	136
6- 9 " " " ".....	22

Sherwood Orchid Azalea

This is a hybrid hinodegiri and our own introduction. We have been growing it for several years in our nursery where it has attracted much attention. Foliage about the size and gloss of the Hinodegiri Crimson Azalea but the plant is hardier. Flowers are a clear lavender with speckled throat, completely cover the plant and are large for a dwarf size azalea. This evergreen fills a need which has not been met by any other azalea. Although showy it harmonizes with other colors in the garden. Mass plantings in gardens or on slopes and terraces are unexcelled.

The 12-15 inch grade can be safely shipped BR.

Sherwood Red Azalea

A magnificent azalea. Compact, dwarf and evergreen. Foliage so glossy it shines, bright green turning in cold weather to fiery red. Better foliage than Azalea hinodegiri from which it was hybridized. Flowers in such abundance that the foliage is almost entirely hidden and of the most brilliant blood red imaginable, brighter by far than Azalea hinodegiri. For several years those who knew we owned this azalea have begged for it but this is only the seventh year we have put it on the market. Hardy where Azalea hinodegiri is hardy. Words utterly fail to describe Sherwood Red Azalea. We consider Sherwood Red Azalea the finest azalea ever offered the nursery trade. It has everything: hardiness, clean habit of growth, easy culture, splendid foliage and almost unbelievable showiness of inflorescence.

Barberry—See Berberis

Beargrass—See Xerophyllum

BERBERIS (BARBERRIES) (bur' ber-is)

Berberis darwini (Darwin Barberry)

A native of South America from Chili to Patagonia. Evergreen, reaching a height of about 5 feet. Foliage is deep green, glossy, and compact, and the small, neat leaves are serrated and holly-like. In early spring the plant is a gorgeous mass of tiny, bright, orange-colored flowers. Very decorative.

DID YOU KNOW?

That there are over 170 species of barberry in Africa, Europe, Asia and the Americas.

Boxwood—See Buxus, Pachistima

Broom—See Cytisus

Bugle—See Ajuga

BUXUS (BOX) (buk ' sus)

Buxus sempervirens aureo-variegata (Golden Box)

A bright, cheerful little dwarf with beautiful golden, variegated foliage. Hardy, of slow compact growth, and does best in shaded locations, where the variegation is most pronounced. One of the attractive broad leaved evergreens.

1- 3 inches once transplanted.....	14
------------------------------------	-------	-------	----	-------

Buxus sempervirens suffruticosa (Truedwarf Box)

Dwarf, slow growing. Foliage fine, deep green, dense. The well known evergreen edging plant. One of the best of all plants for formal borders.

1- 3 inches once transplanted.....	14	112
3- 6 " " "	17

Buxus sempervirens suff. albo-marginata (Silveredge Dwarf Box)

Has all the characteristics of the true dwarf box, hardy, dwarf, compact, symmetrical. Presents a pleasing silvery appearance due to the variegated foliage.

9-12 inches twice transplanted.....	B&B	1.10	9.90
-------------------------------------	-----	------	------	-------

Camellia japonica (Cheerful) (kah-mel' i-ah)

Camellia in commemoration of George J. Karmel or Cammellus, a Jesuit who traveled in Asia in the 17th century. The camellia holds a place right up in the front ranks among flowering trees. The superb, waxy, rose like flowers are loved by everyone, are fine when on the tree or as cut flowers. Leaves are large, of intense, waxy glossy surface and make just the right setting for the wax-like flowers which are splendid, double, perfectly shaped and bright red. A favorite.

3- 6"....."	18	144

Cedar—See Libocedrus, Juniperus

DID YOU KNOW?

That one apple tree may lift from the soil 4 gallons of water per hour.

CHAMAECYPARIS (kam-e-sip' ah-ris)

Chamaecyparis lawsoniana (Lawson Cypress)

A conifer of most satisfying effect, both in stately habit of growth, dense limbs and graceful foliage. Not hardy in areas of extreme cold, but fortunate, indeed, are localities which can grow this handsome tree. It is fine when grown in somewhat open or well spaced rows, and is equally good when grown as single specimens, needing no supporting plantings to enhance its beauty. Native of the Oregon coast.

5- 6".....".....".....B&B	3.50	31.50	284

Chamaecyparis lawsoniana ellwoodi (Ellwood Cypress)

A semi dwarf and comparatively new addition to the cypress family which has added such a long list to the trees that we admire and love. Ellwood Cypress is a trim, compact, narrow pyramid with soft, feathery, bluish green foliage. It is superior to many of the older forms of cypress with which we are familiar and certainly will replace some of them. Naturally grows in its lovely form with scarcely any pruning. Hardy.

Erica carnea sherwoodi (Sherwood Creeping Heath) (*er' i-kah*)

Low growing heath with brilliantly green foliage. Blooms very profusely in late winter and spring. Flowers bright carmine red. Perfectly hardy. Splendid new evergreen. Height 6 inches. Has the habit of rooting along the stems thereby spreading almost indefinitely in a very satisfactory manner. An extraordinarily beautiful gem in rockeries, around pool margins and in borders. A superb ground cover. Pleasingly fresh in appearance the year round. Probably the best of dwarf heaths.

3- 6 inches once transplanted.....	\$	\$	\$ 14	\$ 112
6- 9 " " "	17	136

EUONYMUS (*eu-on' i-mus*)

Euonymus radicans argenteo marginatus (Silveredge Wintercreeper)

A variegated, low, procumbent shrub with often trailing and rooting or climbing branches. Very dense foliage, which presents a light appearance in summer, and a cheerful and particularly pleasing one, when in the winter season ,the variegation of the dainty leaves takes on charming tints of red and pink when flowers are scarce in the garden and a touch of color is welcome. Dwarf and hardy. Height about 2 feet but will mass up against a wall to a height of 6 feet or more in old specimens.

3- 6 inches once transplanted.....	16
6-12 " " "	20

Euonymus radicans carrierei (Glossy Wintercreeper)

Similar to radicans. Low with ascending and spreading branches. Hardy.

6-12 inches twice transplanted.....	20
-------------------------------------	-------	-------	----	-------

Euonymus radicans coloratus (Purple leaf Wintercreeper)

A trailing evergreen form of unsurpassed merit. Can be used effectively as a ground cover, or to train against wall or rocks in natural beauty. The foliage which is always good, is at the height of its glory when in the autumn it takes on the rich colorings of red and bronze that are carried through the winter. Very hardy.

12-24 inches twice transplanted.....	22	176
--------------------------------------	-------	-------	----	-----

DID YOU KNOW?

That Sherwood Nursery Co. prepays the shipping charges on all liners.

Fir—See Abies, Pseudotsuga

Gaultheria procumbens (Wintergreen) (*gaul-theer' i-ah*)

This is the little plant which produces the true wintergreen flavor and from which wintergreen oil is extracted. There is nothing with which it can be compared for the reason that it is in a class by itself. It is a sturdy, hardy little subject flourishing northward into Canada and well to the southward particularly in elevated regions. The tiny leaves are nicely rounded, deep green and glossy and take on rich shadings of deep red in the autumn. Grows to a height of only 4 to 6 inches but produces a matted ground covering. Bears bright red berries in great abundance. These berries, which are edible, remain on the plants until the following summer. Children often take delight in gathering them as well as the tender young leaves for their sweet winter-green flavor. When food is scarce in the winter season they form a part of the food of game birds. The fine foliage, the small, delicate, pink, bell-

Gaultheria procumbens (Wintergreen)—(continued)

shaped flowers, the brilliant red berries and its hardiness combine to make it one without peer in its class. To know this delightful little plant is to admire and love it and it should occupy a place in every garden where it will grow. Along with its other merits it is easy to handle.

That the total length of the root hairs of a winter rye plant may be more than 6600 miles.

Mountain Laurel—See Kalmia

Myrtle—See Vinca, Umbellularia

Nandina domestica (Nandina) (*nan-dy' nah*)

A native of the Orient. Characterized by delicate foliage, the long slender leaves being frond-like. It bears large clusters of bright red berries which at times almost cover the top of the plant. Some of the leaves turn in autumn to attractive shades of red, bronze and scarlet, and some remain green. Height 4 to 5 feet. Good for specimen or mass plantings. One of the finest hardy evergreens grown.

Pachysandra terminalis (Japanese Spurge) (*pak-i-san' drah*)

Of Japanese origin, is evergreen and grows in dense masses, with especially full development at the terminals of the stems. This makes it especially valuable as a ground cover. Grows to a height of 10 inches, and possesses a light green foliage of delightful freshness of appearance. Hardy. Thrives best in shade.

1 year plants	9	72
---------------------	-------	-------	---	----

Periwinkle—See Vinca

Pernettya mucronata (Chilean Pernettya) (*per-net' i-ah*)

Also known as South American Huckleberry. Neat evergreen foliage, white flowers. The shrub reaches a height of 4 to 5 feet and a spread of 3 or 4 feet. Native from Mexico to southern South America. Hardy in sheltered positions as far north as New York. An old and almost forgotten garden favorite, but one which is rapidly and deservedly again coming into popular favor.

PINK BERRIED

12-15 inches twice transplanted.....B&B	1.10	9.90
15-18 " " ".....B&B	1.25	13.50

Upright evergreen shrub to 6 feet or more having very fine ornamental qualities. Leaves of medium size on slender vertical branches. Best known for its brilliant foliage which during most of the year is a showy copper red. Outstanding when seen with other shrubs. Hardy.

	Each	10	100	1000

6-9 " " " "	13	104
9-12 " " " "	16	128
12-15 " " " "	20	160

One of the best known and one of the hardiest of conifers. Native of northern Europe. Conical in form of growth and with deep green foliage. Does well in rather sterile soil and defies the blast in cold, exposed situations. Rapid growing, the name *excelsa* meaning lofty. Valuable for windbreaks and makes a good specimen tree. Holds a place of deserved esteem.

Umbellularia californica (Oregon Myrtle) (*um-bel-eu-lay' ri-ah*)

A handsome hardy evergreen tree, 25 to 30 feet in height and sometimes reaching 75 feet. Native of southern Oregon and northern California where it reaches its greatest perfection of growth along the streams and valleys of the coast range. The tree is conical in form and the leaves are highly aromatic. Well adapted to hedges. Sargent has described the Myrtle as "one of the stateliest and most beautiful inhabitants of North American forests, and no evergreen tree of temperate regions surpasses it in the beauty of its dark dense crown of lustrous foliage"

VACCINIUMS (*vak-sin' i-um*)

Vaccinium—Rancocas

One of the fine improved blueberries. A dual purpose shrub. Good for both fruit and ornament. Beautiful in flower, fruit, marvelous autumn colors of reds and coppers and red orange branches in winter. Height around 4 feet. Hardy. A most useful shrub. Deciduous.

Vaccinium ovatum (Evergreen Huckleberry)

First discovered by the Lewis and Clark expedition at the mouth of the Columbia river in 1805. One of the great beauties of the plant is the thick, waxy leaves, of blended shades of green in spring and summer, and changing to a mixture of deep crimson and bronze in fall and winter. Its winter and spring colors utterly defy description. It is a rounded plant, many branched and of unusual density. Strong, vigorous grower, and stands unlimited shearing. Can be sheared into a hedge from 1 to 5 feet tall. Does well in either sun or shade, but is at its best in partly shaded exposures. A hardy evergreen shrub of surpassing merit and a fine hedge plant. Berries small but abundant and of fine flavor.

DID YOU KNOW?

That in the land of ling the burning and complete destruction of heather is necessary to perpetuate its life.

Vaccinium parvifolium (Red Huckleberry))

A lovely deciduous shrub native of western Oregon. Foliage dainty, bright green, turning to dazzling shades of red and bronze in autumn. Does well in either sun or shade. Bark is red and in the spring the new buds give the plant a red sheen. Flowers pink and attractive, followed in summer by a great profusion of bright red berries. These though acid are edible and used for jelly making. Its habit of growth, fine foliage, bright red buds and twigs, dainty flowers and showy red berries combine to make this shrub a splendid landscape subject. Hardy. Very rare in the nursery trade.

SPECIAL LINING OUT COLLECTION OFFERED

We have in our nursery numerous varieties in lining out stock in small lots and odd grades not practical to list separately which we are offering at low prices. These are mostly varieties that are listed in the catalog and are all good stock. Both broadleaved evergreens and conifers. None are labeled for size or name. No order accepted for less than 25 of a grade. We make up the assortment using care to select varieties adapted to the section for which they are designed. The prices are as follows:

	Each	10	100	1000
Once transplanted	\$	\$	\$ 15	\$
Twice transplanted	20
Twice transplanted (Heavy)	30

SPECIAL B&B COLLECTION OFFERED

We also have odds and ends in B&B stock that we are offering in collections of 10 plants each. These are all good trees and shrubs. All are properly labelled and of excellent value. No order accepted for less than 10 plants of a grade. We make up the assortment using care to select varieties adapted to the section for which they are designed.

Collection No. 1 (10 plants—small grade)	B&B	\$	\$10.00	\$	\$
Collection No. 2 (10 plants—medium grade)	B&B	15.00
Collection No. 3 (10 plants—large grade)	B&B	20.00

HEDGES

Are you in need of hedge material? We have it; excellent stock for screening out noise, wind, cold and objects not desired, for giving background color or outlining margins. More and more hedges are being used both in cities and rural areas. We offer among others the following evergreen subjects:

	Page
Berberis verruculosa	
Height 3 to 4 feet. One of the hardiest and best.....	9
Camellia japonica (Pink Perfection)	
Popular evergreen, with glossy deep green foliage.....	10
Cytisus purgens (Provence Broom)	
Hardy dwarf, evergreen broom growing to 3 feet in height.....	13
Laurocerasus zabeliana (Zabel Laurel)	
Large spikes of white, scented flowers. Foliage rich, glossy green.....	17
Libocedrus decurrens (Western Incense Cedar)	
Fragrant evergreen foliage and charming habit of growth.....	18
Mahonia aquifolium (Oregon Grape)	
Attractive in foliage, flower and fruit.....	18
Pachistima myrsinites (Mountain Boxwood)	
Is thickly clothed with small ovate leaves of deep green.....	19
Taxus baccata (English Yew)	
One of the best of all hedge plants. Old favorite of English gardens.....	24
Taxus baccata aurea (Golden English Yew)	
Hardy slow growing, dense golden foliage.....	24
Taxus baccata erecta (Broom Yew)	
Very superior for narrow hedges where real quality is desired.....	24
Taxus baccata fastigiata aurea (Golden Irish Yew)	
Gives an air of perfect culture and refinement.....	25
Taxus cuspidata (Japanese Yew)	
Its long and continued use speaks for its quality.....	25
Thuja occidentalis (American Arborvitae)	
Makes fine low hedges or taller wind breaks. One of the best.....	26
Thuja occidentalis aureo-variegata (Goldspot Arborvitae)	
Possesses delightful freshness and color throughout the seasons.....	26
Thuja occidentalis pyramidalis (American Pyramidal Arborvitae)	
A solid wall of green, requires scarcely any care.....	26
Tsuga canadensis (Canada Hemlock)	
Conifer of graceful, pleasing habit of growth.....	27
Tsuga mertensiana (Mountain Hemlock)	
Alpine in habit of growth and often verges into a pleasing blue.....	27
Vaccinium ovatum (Evergreen Huckleberry)	
Strong, vigorous grower, and stands unlimited shearing.....	28
